Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 29 May 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. The amendment filed on 5/29/2007 has been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior office action.

Claim Rejections - 35 USC § 103

3. Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yamada (U.S. Patent No. 4,727,419).

Yamada et al. '419 disclose system and method for electronically identifying tires downstream from one processing station to another. The method comprises providing means for locating a barcode and identification marks on the circumference of the tire at a first stage 3. The method comprises providing movable cameras for reading the barcode and identification marks at a second stage 4 and third stage 5 downstream from the first stage (Figure 1). It is obvious that the means and method for electronically identifying tires is applicable to identifying wheels, since Yamada et al. '419 anticipate all method steps per claimed invention.

In regards to claim 4, it is obvious that stage 4 and 5 could be regarded as a single second stage (Figure 1).

In regards to claims 7 and 15, Yamada et al. '419 comprise the step of rotating the tire such that the barcode and identification marks are oriented for interception by the cameras (column 5, lines 36-38).

Response to Arguments

4. Applicant's arguments filed 5/29/2007 have been fully considered but they are not persuasive.

Art Unit: 3651

With regards to applicant's argument that Yamada does not disclose a system in which the identification mark on the wheel is electronically read on-the fly without stopping downstream movement of the vehicle wheel, according to Column 6, lines 51-64, the detection of the identification mark can be effected instantaneously without stopping the movement.

Therefore, this limitation is in fact disclosed.

5. Regarding claims 12-17, the word "means" is not preceded by any functional language in an attempt to use a "means" clause to recite a claim element as a means for performing a specified function. However, since no function is specified by the word(s) preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Klumb*, 159 USPQ 694 (Bd. App. 1967). Therefore, applicant has not invoked 35 U.S.C. 112, sixth paragraph.

6. For the foregoing reasons, Claims 1-17 stand rejected.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3651

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
